

Closer Than I Am Today

Words & Music: Darrell Gow

Verse 1-
If I could hold your hand / If I could make you see
If I could tell you stories / So you would believe
If I could sit with you / We'd be face to face
You would look into my eye / You would see my grace

Pre-Chorus
I have always loved you / More then you will know
I have always been there / I have tried to show

Chorus -
There has never been / There will never be
A time when will I will love you more
A time when you will see
That I have always been / And I will always be
Just a prayer away from you
I know that you will see
That I have never been / Closer than I am today

Verse 2-
Even though it hurt / Even through the pain
Even though I suffered – I had everything to gain
By giving up my life / And hanging on that tree
I knew what the future held / I knew that you'd be free

Pre-Chorus -

Chorus -

Bridge -
Through all your hurt and all your pain
Through all of your suffering
I just wanted you to call upon my name
You and I know deep inside
There is nothing you can hide
I have loved you long before / Time – be – gan

Chorus -
There has never been / Oh and there will never be
A time will I will love you more
A time when you will see
That I have always been / Oh and I will always be
Just a prayer away from you
I know that you will see
That I have never been / Closer than I am
I have never been / Closer than I am
I have never been / Closer than I am - to - day
